BOSE

SOUNDLINK FLEX PORTABLE SPEAKER (2ND GEN)

Please read and keep all safety and use instructions.

CE Bose Corporation hereby declares that this product is in compliance with the essential requirements and other relevant provisions of Directive 2014/53/EU and all other applicable EU directive requirements. The complete declaration of conformity can be found at: www.Bose.com/compliance

UK CA This product conforms to all applicable Electromagnetic Compatibility Regulations 2016 and all other applicable UK regulations. The complete declaration of conformity can be found at: www.Bose.com/compliance

Bose Corporation hereby declares that this product is in compliance with the essential requirements per Radio Equipment Regulations 2017 and all applicable UK regulations. The complete declaration of conformity can be found at: www.Bose.com/compliance

Important Safety Instructions

If the speaker is exposed to salt or chlorinated water, gently rinse with fresh water following the exposure to remove residue. Make sure the connector port is fully dried out before charging.

Clean only with a dry cloth or water dampened cloth. Do not use cleaning products.

Only use attachments/accessories specified by the manufacturer.

Refer all servicing to qualified personnel. Servicing is required when the apparatus does not operate normally, or has been physically damaged.

WARNINGS/CAUTIONS

Contains small parts which may be a choking hazard. Not suitable for children under age 3.

This product contains magnetic material. Consult your physician on whether this might affect your implantable medical device.

- Keep the product away from fire and heat sources. Do NOT place naked flame sources, such as lighted candles, on or near the product.

- Do NOT make unauthorized alterations to this product.

- Use this product only with an agency-approved LPS power supply that meets local regulatory requirements (e.g., UL, CSA, VDE, CCC).

- The battery provided with this product may present a risk of fire, explosion or chemical burn if mishandled, incorrectly replaced or replaced with an incorrect type.

- Do not expose products containing batteries to excessive heat (e.g. from storage in direct sunlight, fire or the like).

- If the battery leaks, do not allow the liquid to come in contact with the skin or eyes. If contact is made, seek medical advice.

- The product label is located on the back of the product.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

• Reorient or relocate the receiving product or antenna.

• Increase the separation between the equipment and receiver.

• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

• Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by Bose Corporation could void the user's authority to operate this equipment.

This device complies with part 15 of the FCC Rules and with ISED Canada's license-exempt RSS standard(s). Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This device complies with FCC and ISED Canada radiation exposure limits set forth for the general population. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

CAN ICES-3(B)/NMB-3(B)

For Europe: Frequency band of operation 2400 to 2483.5 MHz. | Maximum transmit power less than 20 dBm EIRP.

Maximum transmit power is below regulatory limits such that SAR testing is not necessary and exempt per applicable regulations.

This symbol means the product must not be discarded as household waste, and should be delivered to an appropriate collection facility for recycling. Proper disposal and recycling helps protect natural resources, human health and the environment. For more information on disposal and recycling of this product, contact your local municipality, disposal service, or the shop where you bought this product.

Low-power Radio-frequency Devices Technical Regulations: Without permission granted by the NCC, any company, enterprise, or user is not allowed to change frequency, enhance transmitting power or alter original characteristic as well as performance to a approved low power radio-frequency devices. The low power radio-frequency devices shall not influence aircraft security and interfere legal communications; If found, the user shall cease operating immediately until no interference is achieved. The said legal communications means radio communications is operated in compliance with the Telecommunications Management Act. The low power radio-frequency devices must be susceptible with the interference from legal communications or ISM radio wave radiated devices. The low power radio-frequency devices must be susceptible with the interference from legal communications or ISM radio wave radiated devices.

DON'T attempt to remove the rechargeable lithium-ion battery from this product. Contact your local Bose retailer or other qualified professional for recycling and disposal.

Please dispose of used batteries properly, following local regulations. Do not incinerate.

## TROUBLESHOOTING

CONTENTS

Confirm that the following parts are included:
Bose SoundLink Flex Portable Speaker (2nd Gen)

USB Type-C® to USB Type-A cable

NOTE: If any part of the product appears to be missing or damaged, do not use it. Visit: support.Bose.com/flex2 for troubleshooting articles, videos, and product repair or replacement.

The speaker ships with a partial charge. Before using the speaker for the first time, connect it to a power supply. The speaker doesn't need to be fully charged, but it does require the initial connection to activate the battery.
INITIAL SETUP

1. Connect the USB-C® end of the cable to the USB-C port on the side of the speaker.
2. Connect the USB-A end of the cable to a USB-A power supply.

    The Power light slowly pulses white.

3. Press the Power button ⏻.

    The Power light glows solid white. You hear the battery level followed by "Ready to connect." The *Bluetooth* light slowly blinks blue.

4. Connect to your device (see page 12).

You can store up to six devices in the speaker device list, and the speaker can be actively connected to up to two devices at a time. You can play audio from only one device at a time.

CONNECT TO A DEVICE

You can connect the speaker to your device using any of the following:

- Your device's *Bluetooth* settings (see "Using your device's *Bluetooth* settings")
- The Bose app (see page 13)
- Fast Pair (Android devices only) (see page 17)

Using your device's *Bluetooth* settings

1. Press and hold the *Bluetooth* button ⦿ until you hear "Ready to connect" and the *Bluetooth* light slowly blinks blue.

   NOTE: If a device is already connected, you hear "Ready to connect another device."

2. On your device, access *Bluetooth* settings.

3. Select the speaker from the list of available products.

   NOTE: Look for the name you entered for the speaker in the Bose app. If you didn't name the speaker, the default name appears.

BLUETOOTH	
Bose Flex 2 SoundLink	
The speaker appears in the list of connected products. The *Bluetooth* light glows solid white (see page 27).

Using the Bose app

The Bose app lets you set up and control the speaker from any device, such as a smartphone or tablet.

Using the app, you can manage *Bluetooth* connections, manage speaker settings, adjust the audio, choose your voice prompt language, and get any future updates and new features made available by Bose.

NOTE: If you've already downloaded the Bose app for another Bose product, you can add the speaker from the product list screen.

1. On your device, download the Bose app.
2. Follow the app instructions to add the speaker.

RECONNECT TO A DEVICE

Reconnect to the most recently-connected device

When powered on, the speaker connects with the two most recently-connected devices.

NOTES:

- The device must be within range (30 ft or 9 m) and powered on.
- Make sure the *Bluetooth* feature is enabled on your device.

Reconnect to a different device

NOTE: The device must be within range (30 ft or 9 m) and powered on.

1. Press the *Bluetooth* button ⊁ and release to hear which devices are currently connected.

2. Within 2 seconds, press the *Bluetooth* button ⊁ again to hear the name of the next device in speaker device list.

3. Repeat until you hear the correct device name.

4. Play audio on the connected device.

TIP: You can also reconnect a different device using the device *Bluetooth* settings or the Bose app (see page 13).

NOTE: If two devices are already connected to the speaker, the newly-connected device replaces the older of the two connections.

CONNECT AN ADDITIONAL DEVICE

The speaker can be actively connected to two devices at a time (multi-point connection).

To connect an additional device, see page 12.

NOTES:

- You can only play audio from one device at a time.
- To manage or disable the multi-point connection feature, use the Bose app. To access this option, tap Source on the product control screen.
- Disabling the multi-point connection feature disconnects the second connected device.

IDENTIFY CONNECTED DEVICES

1. Press the *Bluetooth* button ⨯ and release to hear which devices are currently connected.

2. Within 2 seconds, press the *Bluetooth* button ⨯ again to hear the name of the next device in the speaker device list.

SWITCH BETWEEN TWO CONNECTED DEVICES

1. Pause audio on your first device.

2. Play audio on your second device.

DISCONNECT A DEVICE

Use the device's *Bluetooth* settings or the Bose app.

NOTE: Disabling the *Bluetooth* feature on your device disconnects the speaker and all other *Bluetooth*-connected products.

CLEAR THE SPEAKER DEVICE LIST

1. Press and hold the *Bluetooth* button ⁑ for 15 seconds until you hear "*Bluetooth* device list cleared. Ready to connect" and the *Bluetooth* light blinks blue.

2. Delete the speaker from the *Bluetooth* list on your device.

   All devices are cleared, and the speaker is ready to connect (see page 12).

ANDROID DEVICES ONLY

If you have an Android device, you can access the following additional connection features.

Connect using Fast Pair

In one tap, the speaker enables quick, effortless *Bluetooth* pairing with your Android device.

NOTES:

- To use Fast Pair, you need an Android device running Android 6.0 or higher.

- Your Android device must have the Bluetooth and Location features enabled.

1. Press and hold the *Bluetooth* button ⌁ until you hear "Ready to connect" and the *Bluetooth* light slowly blinks blue.

   NOTE: If a device is already connected, you hear "Ready to connect another device."

2. Place the speaker next to your Android device.

   A notification displays on your device prompting you to pair the speaker.

   NOTE: If you don't see a notification, check that notifications are enabled for the Google Play Services app on your device.

3. Tap the notification.

   Once the speaker is connected, a notification appears confirming that the connection is complete.

   NOTE: You can also tap the button on the notification to download the Bose app and finish setting up the speaker.
Snapdragon Sound technology

Bose SoundLink Flex Portable Speaker (2nd Gen) features Snapdragon Sound technology. Snapdragon Sound optimizes Qualcomm® audio technologies across connected devices to ensure the best sound quality, connection stability, and latency for your streaming audio.

To experience Snapdragon Sound, you need a Snapdragon Sound-certified device, such as a compatible Android device. Once you connect the speaker, your device will automatically stream audio using the aptX Adaptive *Bluetooth* codec.

NOTE: To see which Snapdragon Sound features the speaker supports and check if your device is compatible, visit: support.Bose.com/flex2

Controls are located on the top of the speaker.

Play/Pause button

Volume down button   Volume up button

Power button   Shortcut button

Bluetooth button

POWER ON/OFF

Press the Power button ⏻.

When powered on, a voice prompt announces the battery level. The Power light glows according to the current battery level (see page 26).

Auto-off timer

The auto-off timer conserves the battery when the speaker is operating on battery power. The speaker switches off when audio has stopped and buttons have not been pressed for 20 minutes.

To wake the speaker, press the Power button ⏻ or press and hold the *Bluetooth* button ᠅.

**NOTE:** To change the timer setting, use the Bose app. You can access this option from the Settings menu.

Disable the auto-off timer

Press and hold the Play/Pause button ▷II and the Volume up button + simultaneously. You hear "Auto-off disabled."

Repeat to re-enable the auto-off timer.

TIP: You can also disable the auto-off timer using the Bose app. You can access this option from the Settings menu.
MEDIA PLAYBACK AND VOLUME

Play/Pause button

Volume down button   Volume up button

FUNCTION	WHAT TO DO
Play/Pause	Press ▷❙❙.
Skip forward	Double-press ▷❙❙.
Skip backward	Triple-press ▷❙❙.
Volume up	Press +. **NOTES:** • To quickly increase the volume, press and hold +. • When the maximum volume is reached, the *Bluetooth* light blinks white 2 times.
Volume down	Press —. **NOTES:** • To quickly decrease the volume, press and hold —. • When the minimum volume is reached, the *Bluetooth* light blinks white 2 times.

TIP: You can also increase or decrease the volume using the volume controls on your device or in the Bose app. You can access this option on the product control screen.

PHONE CALLS

Play/Pause button

Volume down button   Volume up button

Shortcut button

FUNCTION	WHAT TO DO
Answer a call	Press ▷‖.
End a call	While on a call, double-press ▷‖.
Decline an incoming call	Double-press ▷‖.
Answer a second incoming call and put the current call on hold	While on a call, press ▷‖.
When two calls are active, end the current call and switch to a second line	Double-press ▷‖ when both calls are active.
Decline a second incoming call and stay on the current call	While on a call, double-press ▷‖.
Switch between two calls	With two active calls, press ▷‖. **NOTE:** Mute is not available when two calls are active.
Mute/Unmute a call	While on a call, press ▷‖
Make a call using voice control	Press ◎. **NOTE:** Shortcut must be set to voice assistant in the Bose app.

Voice prompt notifications

The speaker identifies incoming callers who are saved in your contact list.

To disable this feature, see page 28.

NOTE: Disabling voice prompt notifications also disables voice prompts.

ACCESS VOICE CONTROL

The speaker microphone acts as an extension of the microphone in your connected device. Using the Shortcut button ◎ on the speaker, you can access the voice control capabilities on your device to make calls or access your voice assistant to play music, tell you the weather, give you the score of a game, and more.

NOTES:

- Shortcut must be set to voice assistant in the Bose app.
- Your device must have voice assistant enabled.
CHARGE THE SPEAKER

CAUTION: Do not attempt to charge the speaker while the speaker is wet. Doing so may cause damage to the speaker. The speaker is waterproof, but the USB-C port must be fully dried out before charging.

NOTE: Make sure you're using the Bose-provided USB cable or a similar USB cable. Bose recommends using a 5V ⎓, 1.5A capable power source.

1. Connect the USB-C end of the cable to the USB port on the side of the speaker.
2. Connect the USB-A end of the cable to a power source such as a computer or wall charger.

While charging, the battery light pulses white. When the battery is fully charged, the battery light glows solid white.

Charging time

Allow up to 4 hours to fully charge the battery.[1]

A full charge powers the speaker up to 12 hours.[2] At maximum volume, the battery lasts up to 3 hours.[3]

Charging time and battery performance vary with the USB power supply capability, music content, and speaker volume.

Hear the battery level

Each time you power on the speaker, a voice prompt announces the battery level. When the speaker is in use, a voice prompt announces if the battery needs to be charged.

Press and hold the Power button ⏻ until you hear a voice prompt.

Battery protection mode

When the speaker battery is depleted (0%) it enters battery protection mode. To reactivate the speaker, connect it to a power supply and press the Power button ⏻.

When not in use, store the speaker in a cool place.

CAUTION: Do NOT store the speaker for extended periods when fully charged or with a remaining charge of less than 10%.

All tests conducted by Bose with production-representative Bose SoundLink Flex Portable Speaker (2nd Gen), between 68° F – 77° F (20° C – 25° C).

1 With 5V/1.5A (7.5W) USB-A capable power supply, from 0% to 100% while unit is in standby mode. Charging times will vary when not using the recommended 7.5W supply.

2 Using *Bluetooth* A2DP audio at 50% volume, with default EQ using a mix of Top 50 Global tracks as of February 2024. Battery performance varies with individual user conditions such as audio content, loudness, and environmental temperature.

3 Using *Bluetooth* A2DP audio at 100% volume, with default EQ using a mix of Top 50 Global tracks as of February 2024. Battery performance varies with individual user conditions such as audio content, loudness, and environmental temperature.

The Power, *Bluetooth*, and Shortcut lights are located on the top of the speaker.

Power light   *Bluetooth* light   Shortcut light
POWER LIGHT

Shows the battery, charging, update, and error status.

LIGHT ACTIVITY	SYSTEM STATE
Solid white	Full charge
Solid amber	Low charge
Blinks amber	Need to charge
Slowly pulses white	Charging
Blinks white 3 times (repeated)	Updating software
Quickly blinks white (3 seconds)	Reset complete
Quickly blinks white and amber (alternating)	Error - contact Bose customer service
Blinks amber 3 times (repeated)	Failed battery - contact Bose customer service

BLUETOOTH LIGHT

Shows the *Bluetooth* connection status.

LIGHT ACTIVITY	SYSTEM STATE
Slowly blinks blue	Ready to connect
Quickly blinks blue	Connecting
Solid white	Connected
Blinks white 2 times	Device list cleared

SHORTCUT LIGHT

Shows the status of speakers when linking is set as the shortcut.

LIGHT ACTIVITY	SYSTEM STATE
Slowly blinks white	Speakers are linking
Solid white	Speakers are linked

Voice prompts guide you through the *Bluetooth* connection process, announce the battery level, and identify connected devices.

TIP: You can easily manage voice prompts using the Bose app. Access this option from the Settings menu.

PRE-INSTALLED LANGUAGES

The following languages are pre-installed on the speaker:

- English
- Spanish
- French

- German
- Italian
- Mandarin

- Japanese
- Cantonese

CHANGE THE LANGUAGE

Change the voice prompt language using the Bose app. Access this option from the Settings menu.

DISABLE VOICE PROMPTS

Press and hold the Shortcut button ◎ and Volume down button — simultaneously until you hear "Voice prompts off."

**NOTE:** Repeat to re-enable voice prompts.

The programmable Shortcut button ◎ enables you to quickly and easily access one of the following functions:

- Link two Bose *Bluetooth* Speakers (default) (see page 31)
- Open your synced device's voice assistant (see page 23)
- Access Spotify Tap (see page 30)

USE YOUR SHORTCUT

Press the Shortcut button ◎.

The Shortcut light blinks once.

NOTE: The Shortcut button ◎ is set by default to link two Bose *Bluetooth* speakers (see page 31).

CHANGE OR DISABLE YOUR SHORTCUT

To change or disable your shortcut, use the Bose app. To access this option, tap Shortcut on the product control screen.

Spotify Tap is music to your ears, quite literally. Get the tunes playing with a simple gesture.

NOTE: To use Spotify Tap, it must be set as your shortcut in the Bose app and the Spotify app must be up to date.

1. Press the Shortcut button ◎ to play a recommendation based on your listening taste.
2. Press the Shortcut button ◎ again for the next recommendation made just for you.

LINK TWO BOSE *BLUETOOTH* SPEAKERS

For a more immersive music experience, you can sync your Bose SoundLink Flex Portable Speaker (2nd Gen) with another compatible Bose *Bluetooth* speaker and play the same audio from both speakers in Stereo mode or Party mode.

• Stereo mode (left speaker and right speaker play separately)

• Party mode (left speaker and right speaker play in unison)

NOTES:

• The Shortcut button ◎ is set by default to link two Bose *Bluetooth* speakers.

• You can link to only one other speaker at a time.

• Make sure that the two speakers are within 30 ft (9 m) of each other.

• Make sure that the two speakers are within 30 ft (9 m) of the streaming device.

• For an optimal experience, position the speakers in the same room or outdoor area with no obstructions between them. Performance may vary based on device, distance, and environmental factors.
Compatible products

You can link the Bose SoundLink Flex Portable Speaker (2nd Gen) to any Bose *Bluetooth* speaker that has a Shortcut button.
Link using the product controls

1. On the speaker, press the Shortcut button ◎.

   The voice prompt directs you to press the Shortcut button on a second speaker. The Shortcut light slowly blinks white.

2. On a second compatible Bose *Bluetooth* speaker, press the Shortcut button ◎.

   The Shortcut light slowly blinks white.

Once the two speakers are linked, a voice prompt announces the mode on both speakers. The Shortcut light on both speakers glows solid white.

NOTE: If the speakers are the same model you hear "Stereo mode," followed by "Left" on the primary speaker and "Right" on the secondary speaker. If they are different models, you hear "Party mode" on both speakers.
Switch between Stereo mode and Party mode

On either speaker, press the Shortcut button ◎.

A voice prompt announces the mode on each speaker.

NOTE: If the speakers are different models, you can only play audio in Party mode.

TIP: You can also switch between Stereo mode and Party mode using the Bose app. You can access this option on the product control screen.

Unlink the speakers

On either speaker, press the Power button ⏻ or press and hold the Shortcut button ◎.

A voice prompt announces the speakers are no longer linked.

TIP: You can also use the Bose app to unlink the speakers. You can access this option on the product control screen.

CONNECT TO A BOSE SMART SPEAKER OR SOUNDBAR

With Bose SimpleSync technology, you can connect the speaker to a Bose Smart Speaker or Bose Smart Soundbar to listen to the same audio in two different rooms at the same time.

NOTE: SimpleSync technology has a *Bluetooth* range of up to 30 ft (9 m). Walls and construction materials can affect reception.

Compatible products

You can connect the speaker to any Bose Smart Speaker or Bose Smart Soundbar.

Popular compatible products include:

- Bose Smart Ultra Soundbar/Bose Ultra Soundbar
- Bose Smart Soundbar 900
- Bose Smart Soundbar 700/Bose Soundbar 700
- Bose Smart Soundbar 600
- Bose Soundbar 500
- Bose Smart Speaker 500/Bose Home Speaker 500
- Bose Home Speaker 300
- Bose Portable Smart Speaker/Bose Portable Home Speaker

New products are added periodically. For a complete list and more information, visit: support.Bose.com/Groups

Connect using the Bose app

1. Press and hold the *Bluetooth* button ⍚ until you hear "Ready to connect" and the *Bluetooth* light slowly blinks blue.

> **NOTE:** If a device is already connected, you hear "Ready to connect another device."

2. Use the Bose app to connect the speaker to a compatible Bose product. For more information, visit: support.Bose.com/Groups

NOTES:

- It could take up to 30 seconds to connect.
- Make sure that the speaker is within 30 ft (9 m) of the speaker or soundbar.
- You can connect the speaker to only one product at a time.

Connect using the product controls

1. Press and hold the *Bluetooth* button ∗ until you hear "Ready to connect" and the *Bluetooth* light slowly blinks blue.

> **NOTE:** If a device is already connected, you hear "Ready to connect another device."

2. On the soundbar remote or the top of the speaker, press and hold the *Bluetooth* button ∗ until the light bar or light ring pulses blue.

   The speaker connects to the soundbar or speaker, and you hear the same audio through both devices.

NOTES:

- It could take up to 30 seconds to connect.
- Make sure that the speaker is within 30 ft (9 m) of the speaker or soundbar.
- You can connect the speaker to only one product at a time.

# RECONNECT A BOSE SMART SPEAKER OR SOUNDBAR

Use the Bose app to reconnect the speaker to a previously-connected compatible Bose product. For more information, visit: support.Bose.com/Groups

NOTES:

- The speaker or soundbar must be within range (30 ft or 9 m) and powered on.
- If the speaker doesn't connect, see "Speaker doesn't reconnect to a previously-connected Bose Smart Speaker or Soundbar" on page 41.

STRAP USES

You can use the strap as a finger loop to easily carry the speaker. You can also attach it to a carabiner or a cord.
WATER AND DUST RESISTANCE

The speaker is waterproof, splash resistant, and dustproof. It is rated IP67 and IP64. You can immerse the speaker in water for up to 30 minutes at a depth of up to 3.3 ft (1 m). It can also be used while showering and in the rain or snow.

CAUTIONS:

- Do NOT submerge this speaker in any pool of water deeper than 3.3 ft (1 m).
- If the speaker is exposed to salt or chlorinated water, gently rinse with fresh water following the exposure to remove residue. Make sure the connector port is fully dried out before charging.
- Never attempt to charge the speaker while it is wet. Doing so may cause damage to the speaker.

> 3.3 ft
(1 m)
UPDATE THE SPEAKER

The speaker begins updating automatically when connected to the Bose app and an update is available. Follow the app instructions. When the update begins, the Power light blinks white 3 times (repeated) until the update is complete.

You can also update the speaker using the Bose updater website. On your computer, visit: btu.Bose.com and follow the on-screen instructions. When the update begins, the Power light blinks white 3 times (repeated) until the update is complete.

CLEAN THE SPEAKER

The speaker may require periodic cleaning.

- Clean the surface of the speaker with a soft, damp cloth (water only). Make sure the USB-C port is fully dried out before charging.

- Do not use any solvents, chemicals or cleaning solutions containing alcohol, ammonia, or abrasives.

- If the speaker is exposed to salt or chlorinated water, gently rinse with fresh water following the exposure to remove residue. Make sure the USB-C port is fully dried out before charging.

STORE THE SPEAKER

When not in use, store the speaker in a cool place.

CAUTION: Do NOT store the speaker for extended periods when the battery is fully charged or has a low charge (see page 25).

REPLACEMENT PARTS AND ACCESSORIES

Replacement parts and accessories can be ordered through Bose customer service.

Visit: support.Bose.com/flex2

LIMITED WARRANTY

The speaker is covered by a limited warranty. Visit our website at worldwide.Bose.com/Warranty for details of the limited warranty.

To register your product, visit worldwide.Bose.com/ProductRegistration for instructions. Failure to register will not affect your limited warranty rights.

TRY THESE SOLUTIONS FIRST

If you experience problems with the speaker:

- Power the speaker off and then on again (see page 19).
- Check the status lights (see page 26).
- Make sure your device supports *Bluetooth* connections (see page 12).
- Charge the speaker (see page 24).
- Increase the volume on the speaker, your device, and the music app.
- Move your device closer to the speaker (30 ft or 9 m) and away from any interference or obstruction.
- Try connecting another device (see page 12).

If you couldn't resolve your issue, see the table below to identify symptoms and solutions to common problems. You can also access troubleshooting articles, videos, and other resources at: support.Bose.com/flex2

If you're unable to resolve your issue, contact Bose customer service.

OTHER SOLUTIONS

SYMPTOM	SOLUTION
No power (battery)	Battery may be in protection mode or discharged. Connect the speaker to a power supply (see page 25).
Speaker doesn't connect with device	Clear the speaker device list (see page 16). Delete the speaker from the *Bluetooth* list on your device. Connect again (see page 12). Visit: support.Bose.com/flex2 for additional support.
Speaker doesn't respond to multi-press functions	Vary the speed of presses.

SYMPTOM	SOLUTION
No sound	Make sure voice prompts are on using the Bose app. Press the *Bluetooth* button ✶ and release to hear the connected device. Make sure you're using the correct device. Use a different music source. If two devices are connected, pause audio on the first device and play audio on the other device.
Poor sound quality from device connected by *Bluetooth* connection	Use a different music source. If two devices are connected, disconnect the second device. Disable any audio enhancement features on the device or music app. If the speaker was exposed to water, wait for the speaker to dry and try again.
Delayed audio	Play audio from a different application or music service. Close and re-open the application or music service.
Speaker doesn't charge	Make sure both ends of the USB-C to USB-A cable are secure (page 24). Make sure you're using the Bose-provided USB-C to USB-A cable or a similar USB cable and providing a minimum of 5V ⎓, 1.5A. Try another charging source and charging cable. If the speaker has been exposed to high or low temperatures, let it return to room temperature and then try charging again. If the speaker was exposed to water, wait for the speaker to dry and try again.
Speaker doesn't link with a Bose *Bluetooth* speaker	Make sure you're connecting to a compatible Bose *Bluetooth* speaker (see page 31).
No sound when Bose *Bluetooth* speakers are linked	Make sure the primary speaker is powered on. If you power off the primary speaker, the secondary speaker stops playing audio.

SYMPTOM	SOLUTION
Speaker doesn't connect to a Bose Smart Speaker or Soundbar	Make sure you're using the Bose app (see page 13). Make sure the Bose Smart Speaker or Soundbar is running the latest software. Use the Bose app and run available software updates. Make sure you're connecting to a compatible Bose product. For a list of compatible products, visit: support.Bose.com/Groups Press and hold the *Bluetooth* button ⁜ until the *Bluetooth* light blinks blue, and you hear "Ready to connect another device." Make sure that the speaker is within 30 ft (9 m) of the soundbar or speaker.
Speaker doesn't reconnect to a previously-connected Bose Smart Speaker or Soundbar	On the speaker, press and hold the *Bluetooth* button ⁜ until the *Bluetooth* light blinks blue, and you hear "Ready to connect another device." Use the Bose app to connect the speaker to a compatible Bose product. For more information, visit: support.Bose.com/Groups
Delayed audio when connected to Bose Smart Speaker or Soundbar	Download the Bose app (see page 13) and run available software updates for the connected speaker and soundbar. On a computer, check btu.Bose.com for USB updates.

RESET THE SPEAKER

Factory reset clears connected devices and language settings from the speaker and returns it to the original factory settings.

1. Press and hold the Volume up button $+$ and Volume down button $-$ for 15 seconds until the Power light quickly blinks white for 3 seconds.

    The speaker powers off.

2. Press the Power button ⏻.

    The *Bluetooth* light glows blue, and the speaker is ready to connect.
